

New Traffic Pattern Scheduled for Route 50

Starting October 9 (weather permitting) there will be a shift in the regular traffic pattern for Eastbound Route 50 traffic between Stonecroft Boulevard and Lee Road. Temporary lane closures to shift traffic will begin around 7:00 pm, and continue overnight until about 5:30 am Friday morning.

Eastbound 50 traffic will be shifted to the right. Temporary traffic signals at Airline Parkway and Lee Road will be adjusted to accommodate the shifted traffic pattern. During the lane shift, delays are expected and alternative routes are recommended. As always, there could be a some minor delays as drivers get used to the new configuration. Please be alert.
